- b. Superman went into a phone booth and Clark Kent came out.
- (4) a. Clark Kent is a mild-mannered journalist.
- b. ? Superman is a mild-mannered journalist.

Sampling Propensity

- Evaluating sentences means sampling exemplars. Concepts can be co-extensional with different **sampling propensities** (Icard, 2016).
- Fully compositional system which handles **connotation of proper names and common names with a joint mechanism**.
- Tight connection between **performance** and **competence** via repeated sampling.
- Implications for **genericity** and **quantifiers like every versus all** and applications for **slurs, euphemisms or circumlocutions**.
